NH START-UP – An incubator for young entrepreneurs

The NH START-UP incubation center is a vision born from the desire to encourage entrepreneurship among young Malagasy people and provide them with a framework to implement their projects.

APPOINTMENT

Its main goal is to support young people with ideas in the design, implementation and growth of their startups, by providing them with personalized support, tailored training, as well as access to resources and a network of experts.

The project **NH START-UP**

It is part of a sustainable approach to economic development, aiming to reduce youth unemployment and strengthen the competitiveness of the Malagasy business sector.

OBJECTIVE PROGRAMMING

THE NH START-UP CENTER AIMS PRIMARILY AT:

Young people aged 18 to 35, with an idea for a new project or in the start-up phase. Early stage entrepreneurs need technical, strategic, or financial support to accelerate their development. Young people who love innovation, want to contribute to the economic and social development of Madagascar.

PRODUCT

🚀 4 startups selected and currently receiving support: E-Ntsena, Flay, Colliwaiz, and Bio Énergie.

👉 This project benefits from the SEEED program (Support for the Entrepreneurial Ecosystem for Decent Employment in Madagascar), led by the NGO PPI Groupe SOS and the NGO Le CEENTRE, within the INCUBOOST program funded by the European Union.

🌍 NH START-UP is one of the 20 Entrepreneurship Support Structures (SAE) recognized throughout Madagascar until 2026, which reinforces its role as a key player in the national business world.

EFFECT

The NH START-UP center aspires to be a center of innovation and human growth, where every young Malagasy person can transform their skills into tangible success.
