

OTRIKASA

YOUTH EMPLOYMENT AND
ENTREPRENEURSHIP

Project Overview

The Otrikasa Project is a professional integration initiative aimed at young graduates aged 18 to 35 facing unemployment.

Its main goal is to strengthen their soft skills (communication, leadership, time management, teamwork) and personal development, while raising their awareness of entrepreneurship.

Through training sessions, practical workshops, and individual coaching, the project helps young people better understand themselves, enhance their skills, and stand out in the job market.

PROJECT OBJECTIVES

- Strengthen the confidence and cross-cutting skills of young graduates.
- Encourage initiative and business creation.
- Promote access to stable and decent employment.
- Contribute to reducing youth unemployment.

RESULTS ACHIEVED

- ✅ 06 young people were selected to participate in the program.
- 👛 03 participants found employment after the training.
- 🚀 02 participants created their own start-up.
- 🎓 01 participant completed the training but is still looking for a job.

Impact

Thanks to Otrikasa, several young people have regained self-confidence, structured their career plans, and entered the labor market with solid skills and a sustainable vision.
